

# Oracle Hyperion Planning 11.1.2: Create & Manage Applications (11.1.2.4)

**CODICE**

D63792GC50

**DURATA**

5 Giorni

**PREZZO**

2.500,00€ (iva escl.)

**LINGUA**

Italiano

**MODALITÀ**

Virtual Classroom  
Corso in aula

**SCHEDULAZIONE**

- A Richiesta

**PREREQUISITI**

Basic knowledge of Microsoft Windows

Basic knowledge of business modeling

Basic knowledge of financial planning and budgeting concepts

Suggested Prerequisites

Knowledge of Essbase administration

Oracle Essbase 11.1.2 Bootcamp (11.1.2.4)

**Audience**

Administrator

Developer

Functional Implementer

Implementation Consultant

System Administrator

Technical Administrator

Technical Consultant

**OBIETTIVI**

Create and deploy Planning applications

Manage metadata and data

Set up security for users, groups, and members

Create and customize forms, menus, and task lists

Migrate application artifacts

Verify application setup

Set up and test business rules

Set up and manage the approval process

## CONTENUTI

Introduction to Planning  
Oracle Hyperion Planning  
Planning Architecture  
Planning Business Process  
Planning Business Scenario  
Navigating Planning  
Interface: Overview  
Launching the Simplified Interface  
Introduction to Applications and Dimensions  
Planning Application: Overview  
Application Framework  
Planning Dimensions  
Aggregate Storage Databases  
Data Block Creation Process  
Aggregation, Storage, and Calculation Options  
Creating Planning Applications  
Application Creation Process  
Managing Data Sources  
Creating Simple Applications  
Creating Advanced Applications  
Refreshing Essbase Databases  
Adding Plan Types  
Managing Dimensions  
Building Dimension Hierarchies  
Performance Settings and Data Type Evaluation Order  
Accessing Dimensions Information  
Managing Dimensions in the Simplified Interface  
Managing Dimensions in EPM Workspace  
Managing Dimensions in Smart View

Launching Calculation Manager and Rule Components  
Managing Views  
Creating Business Rules and Rule Sets  
Validating and Deploying Rules  
Assigning Business Rule Security  
Launching Business Rules  
Setting Up the Approval Process  
Approvals: Overview  
Creating Planning Unit Hierarchies  
Assigning Scenario and Version Combinations  
Synchronizing Planning Unit Hierarchies  
Exporting and Importing Planning Unit Hierarchies  
Updating the Promotional Path with Validation Rules  
Managing the Approval Process  
Approvals Dashboard  
Planning Unit Approval States  
Reviewer Actions  
Impact of Entity Hierarchy on the Review Process

Managing the Review Cycle

Viewing and Resolving Validation Errors

Copying Data Between Versions

Copying Data

Creating Task Lists

Task Lists: Overview

Navigating Task Lists

Task List Creation Process

Appendices

A: Creating Applications in Performance Management Architect

Case Study

**Description:**

This Hyperion Planning 11.1.2.4 training will teach you how to create and administer Planning applications. You'll learn how to manage metadata and add dimensions and members.

Learn To:

Create and deploy planning applications.

Manage metadata by adding and importing dimensions and members.

Load data.

Set up security for users, groups, and members.

Create and customize forms, menus, and task lists.

Migrate application artifacts.

Set up and test business rules.

Set up and manage the approval process.

Benefits to You

Optimize your organization's resources by linking strategic, financial, and operational business plans. Align your organization using your new skills to efficiently plan, budget and forecast with Oracle Hyperion Planning.

Design and Manage the Approval Process

Enrolling in this course will also help you develop the knowledge and skills to design and manage the approval process.

This includes building planning unit hierarchies and assigning responsibilities and promotional paths for planning units.

Exercises, along with a case study, give you hands-on practice to solidify your understanding. By investing in this training, you'll learn how to create a planning application using the Simplified Interface.

Recommended New Student Tutorial

For students new to Oracle Hyperion Planning, consider viewing the Planning Overview Tutorial before attending class.

This course covers Planning 11.1.2.4.0
