Description:

This Fusion Applications: Oracle HCM Absence Management

training teaches you how to implement, configure, and use

Oracle Fusion Absence Management for your enterprise. Through interactive instruction and hands-on exercises, you'll

expand your knowledge and ability to use this solution to benefit your business.

Learn To:

Create absence plans, types, reasons, categories, and

certifications

Create rate definitions and associate them with an

absence plan

Use formulas to extend Absence Management functionality

Schedule and maintain absences

View plan participation details and pending action items

Approve the submitted absence

Benefits to You

By taking this course, you'll develop the skills to execute a smooth, rapid implementation of Oracle Fusion Absence

Management. Understand the configuration options so that you can make improved decisions during your

implementation. Create and manage absence plans and types quickly for your organization. Manage absence reporting

activities efficiently.

Oracle Fusion Absence Management

This course will help you understand Oracle Fusion Absence Management. You'll set up and manage absence

components such as accrual plans and qualification plans. You'll also configure supporting absence components such

as eligibility profiles and rate definitions and learn to manage absence data.

Please Note

This course is relevant for any customers using Fusion

Applications through Release 11.1.11. It's appropriate for

both Oracle Cloud and on-premises deployments.
