PREREQUISITI

Introduction to Oracle Human Capital Mgmt Cloud

Audience

Business Analysts

Configuration Consultant

Implementation Consultant

Support Engineer

OBIETTIVI

Identify common execution and compilation errors

Write common formula types used within Oracle HCM Cloud

Describe the components and structure of formula syntax to compile successfully

CONTENUTI

Course Overview

Course Objectives and Agenda

Course Materials

Additional Sources of Information

Fast Formula Overview

Oracle HCM Cloud Overview

Examples of Formula Uses

Formula Editors

Security Overview and Example

Basic Fast Formula Syntax

Formula Components

Database Items
Global Values
Variables
Statements and Functions
Formula Compiler
Basic Fast Formula Structure
Understanding Statement Types
Writing Well Structured Formulas
Formula Structure Examples
Advanced Fast Formula Syntax
Arrays
Calling a Formula from a Formula
Setting Formula Context Values
The Working Storage Area
Performance and Troubleshooting
Formula Writing and Performance Tips
Troubleshooting Tips
Common Compilation and Execution Errors
Payroll Formulas
Commonly Used Payroll Formula Types
User-Defined Tables
Elements and Formulas
Payroll Process Configuration
Debugging Payroll Formulas
Benefits Formulas
Commonly Used Benefit Formula Types
Formulas for Benefits
Formula Contexts
Evaluating Benefits Formulas
Compensation Formulas
Commonly Used Compensation Formula Types
Compensation Default and Override Formulas
Testing Compensation Default and Override Formulas
Absence Management Formulas
Commonly Used Absence Management Formula Types
Formulas and Accrual Plans
Global Absence Plan Duration Formulas
Global Absence Plan Duration Formula Contexts
Time and Labor Formulas
Time and Labor Formula Types
Delivered Time Entry Rules
Delivered Time Calculation Rules

Time Repository Rules, Rule Sets, and Templates

Analyzing Rule Processing

Description:

This Oracle HCM Cloud: Fast Formula training teaches you how fast formulas can be used to support business processes in Oracle HCM Cloud applications. You'll learn how to create and implement fast formulas through a combination of interactive lessons and hands-on exercises.

Learn To:

Describe the uses of fast formulas in payroll, benefits, compensation, absence management, and time and labor.

Describe the components, structure, and syntax of fast formulas.

Use conditional logic in fast formulas.

Use the predefined fast formulas delivered with your application.

Write, compile, and troubleshoot your own fast formulas.

Benefits to You

Fast formulas provide a simple way to write formulas using English words and basic mathematical functions in order to perform calculations or comparisons. This course will help you discover how to use fast formulas to develop and implement a wide variety of business solutions.

Please Note

This course is relevant for any customers using Fusion Applications through Release 11.1.11. It's appropriate for both Oracle Cloud and on-premises deployments.
